# Nutcracker on Ice

## An overview of Nutcracker on Ice for Corporate Sponsors

### **Our Audience**

Our primary audience is families in the St. Louis area. We also draw a large number of Girl Scout troops to our shows. We are the only figure skating production of The Nutcracker in the St. Louis area. One of our goals is to showcase the talent of the St. Louis skaters and recognize their coaches before the St. Louis community. The story itself is very family friendly. We have priced tickets to be affordable for families (\$12 through the cast, \$15 in advance, \$20 at door). We support a charity each year and conduct food and/or other drives as part of the event, which is supported by our skaters and promoted through challenges and raffles to the Girl Scout troops and patrons. We have made large food pantry donations to the Operation Food Search for several years. We have donated over 1000 lbs of food and many additional pre-packaged cases of food. This year, we will once again hold a food drive.

### **Visibility**

Media coverage of this event continues to grow each year as over 2500 skating fans attend our 4 shows annually. Our publicity plan includes media appearances (including appearing in the Christmas in St. Louis parade on Thanksgiving, a booth at the Webster Holiday Open House and appearances on local news shows), print coverage, public service announcements and placement on many community calendars.

Participation in our sponsorship program offers exposure to the rapidly growing market of youth sports; this affiliation will enhance your public image and provide opportunities for advertising and publicity. National sponsors for U.S. Figure Skating have included American Cruise Lines, Consumer Cellular, GEICO, Noom, and Toyota just to name a few. These sponsors know that figure skating is the most watched sport of the Olympics and their audiences and participants are energetic, well-educated, leaders in their communities.

### **Metro Edge Figure Skating Club of Missouri**

The Metro Edge FSC is the organization that produces this event. We are a not for profit, 501c3, U.S. Figure Skating Club with over 100 member families from throughout the St. Louis metro and Eastern Illinois communities. The Metro Edge Figure Skating Club's mission is to provide ways for individual and team figure skaters to achieve excellence in skating and competition, to participate in a team spirit of mutual respect and goodwill and enjoy the time put into attaining their skating goals. We feel producing the Nutcracker on Ice plays an important role in fulfilling our mission. These skaters spend hours upon hours perfecting their craft for competitions and tests, but the show provides them the opportunity to entertain and amaze you with their skating ability and talent. Performance in this show is a highlight for all of our skaters, as this is when they share their love for the sport and art of figure skating with the community. Their reward will not be a medal or passed level, but will be enthusiastic applause, and they will tell you there is nothing better!

In addition to producing this and other shows, our club is multi-faceted. We host an annual competition, *Meet Me in St. Louis*, and in 2010 and 2015 we hosted the ISI District 9 Championships. We sponsor seven synchronized skating teams who represent the club and our city throughout the Midwest region in U.S. Figure Skating competitions. We have even rostered a Junior Team that competed as TEAM USA internationally and received the silver medal in 2014 at the National level. Our 2008-09 Juvenile team was the first team from Missouri to ever qualify for the U.S. Figure Skating Synchronized Skating Nationals and we've repeated this almost every year since! We provide professional development programs and funding to our coaches. We support local and national charities, which have included Operation Food Search Food Pantry through our annual Nutcracker Food Drive. For additional information on our organization please visit [www.metroedgesc.org](http://www.metroedgesc.org).

### **Director**

Charity Hendrickson is returning as director for our 19th annual Nutcracker on Ice. She brought this production from Rockford, Illinois, where it was conceived and created by her mother. Charity has 20 years of experience both as a cast member and a director of this show in Rockford where it was a well-known successful event! She

is excited to share this production with the St. Louis community. In addition to coaching skating, Charity works as a physical therapist for SSM Health.

### **Production Staff**

A capable 25+-member volunteer staff has been recruited to head up all aspects of the show's production under Charity and producer, Brooke Lacey, direction. We also have professional coaches on the Webster Groves Parks and Recreation staff who will be choreographing the group numbers.

### **Challenges / Community Support Needed**

We are dedicated to making this a special experience for the skaters who participate and provide an opportunity to all who participate to give back to the community food drive. We strive to raise awareness of the event and the food drive to a larger community. Families in our area go without enough food every year and the agencies that support them are in desperate need of donations this time of year. We know we can increase our donation substantially through increased awareness.

We want to continue to keep the show affordable to families so many may enjoy the magic of a show on ice! The costs of doing a show can be daunting; show expenses have run over \$20K annually. In addition to ice rental, we must rent lighting and music equipment and purchase materials for costumes and sets. Our volunteers provide over 2000 volunteer hours to execute this show, including all the labor for our costumes and sets, but as you can see the costs are still substantial for a community production.

**Corporate sponsorships and assistance in marketing the show can increase our income to cover our expenses.** Community support will help draw more patrons to our shows, which will enable us to continue to provide an opportunity for families to participate and attend the show at a low cost.
